

## Events Committee

The objectives of the Events Committee include:

- To consider and recommend events to the Board, and to implement them upon agreement;
- To work with the Board to establish dates that do not clash with other market events or other unsuitable dates or with other ARC activities;
- To appoint and supervise service providers to organise the events within the terms of any mandate given by the Board;
- To liaise with the Finance committee to formulate and monitor budgets for ARC events and ARC attendance at/sponsorship of other market events

This is an ad hoc committee that co-opts other members of the board as the driver for each individual event.
