

ARC Awards 2008

Reflecting ARC's objective to promote excellence within the run-off sector, the ARC Awards recognise the talent and creativity that are to be found everywhere in the growing legacy management sector. They have quickly found an important place in the life of the sector and are highly prized by those who win them.

What makes them significant is that they throw a bright spotlight on the valuable work that legacy managers and advisers do, illuminating their achievements not just to an audience of their peers, but also to the broader financial world.

Because the judges are themselves leading players in the London market who represent live underwriting operations, legacy companies, practitioners and advisers, those who receive an ARC Award know that they have been recognised as attaining high standards, both as professionals and as respected members of the market in which they operate.
